

IN THE SPECIFICATION:

Page 1, after "Background of the Invention":

--1. Field of the Invention

The present invention relates to a toilet lid according to the preamble of claim 1.

2. Description of the Related Art--

Page 1, after "Summary of the Invention":

~~--The aforesaid object is achieved by means of a toilet lid having the features specified in Claims 1 and 2.--~~

Page 2, first paragraph:

~~--According to a first embodiment specified in Claim 1, the invention consists in that at least one cupola- or dome-like, one- or multidimensional moulded body made of a glass-clear, transparent or semitransparent material is fixedly or detachably arranged on the outer wall surface of the toilet lid, and solid, liquid or moveable decorative objects or materials and/or functional objects are arranged in the hollow space defined by the moulded body and the outer wall surface of the toilet lid.--~~

Page 2, third paragraph:

--According to a second embodiment ~~specified in Claim 2~~, the invention consists in that both openings of the drilled through-hole in the toilet lid are covered by means of plate-shaped or cupola- or dome-like, one- or multidimensional moulded bodies made of a glass-clear, transparent, or semitransparent material and/or a non-transparent material, which moulded bodies are fixedly or detachably arranged, and solid, liquid or movable decorative objects of materials and/or functional objects are arranged in the hollow or interior space defined by the moulded bodies.--
